Cost per company - €120 first year, €70 thereafter per annum  
Reduced rates for Technology Parks, contact us for details.

# COLLABORATE

## FIND COMPLEMENTARY TECHNOLOGIES WORKING ON SCIENCE PARKS

Innovation Search is a database of innovative companies operating in the UK, with new countries joining in the next year. Currently 2800 technology companies can be searched and contacted. This database is only open to genuinely innovative companies to reduce the use of the data for purely marketing purposes by suppliers. Whether you are an investor or a government agency, you should join Innovation – Search to fully understand the innovative network. If you are a science park or an innovative company join the database to allow your details to be searched by other innovative companies looking for collaborations and to gain access to the database for your own research purposes.

## BENEFITS

### OTHER INNOVATORS

- Be found by other innovative companies looking for collaborations
- Become part of an innovative network of companies most of whom are based on science and research parks
- Receive offers of collaboration from other innovators working in your field of expertise
- Receive offers of collaboration from Innovators working in complementary disciplines
- Be found by technology scouts looking for market ready products or willing to invest in proof of concept trials.
- Be found by Investors looking to become involved in fast moving growth companies
- Be found by Government agencies wanting to introduce their countries innovators

### RESEARCH

- Use Innovation – search to find out what competitors are doing and where they are doing it.
- Make your own overtures to potential collaborators to join complementary research in areas that they might have not considered.

By joining Innovation- Search the innovation community can be assured that they are only being viewed by other innovative companies and will not be targeted by suppliers for marketing purposes.
